## Adoption Services

Support. Grow. Thrive.

Adoption touches the lives of all people involved, the adopted child, birth parents/family, the adoptive parents/family as well as extended relatives and friends.

At The Rosewood Centre, we provide free counselling, support, and information, for anyone impacted by adoption.

## Information, resources and support

Our counsellors can support people with accessing records, family tracing and reuniting, and with past adoption concerns. We also provide relevant information and resources to meet your needs.

## Counselling

Our qualified and experienced counsellors provide face-to-face, online and telephone counselling to anyone impacted by adoption in any way (past, present or future), anyone considering adopting a child into their care, or considering adoption as an option for their child.

The team provide individual, group, family and couples counselling and can support you with your adoption-related issues/needs such as, but not limited to; grief and loss, identity, relationships, attachment, trauma and making informed decisions.

## Education and Training

Our team also provide evidence-based education and training programs for people impacted by adoption, community groups and other professionals.
